YEARS OF EXPERIENCE IN HIGHER EDUCATION

2004-2024- (20 Years) – Worked with staff and students in both Open and Distance learning (ODL) and on campus Face to Face (F2F) on campus modes.

Keen interest in working with higher learning institutions to integrate educational technology (EduTech) into their operations. Including deployment of Cloud-based technologies to streamline education institution functional areas such as Student Management Systems (SMS), Learning Management Systems (LMS), student information websites/portals and development of course materials using Instructional Design methods.

Also helping students guide their ICT career choices towards emerging technology topics such as AI, Data Analytics, Cybersecurity and E-Commerce.

Manages a personal blog website www.studyinpng.com to share and promote computing tips and local tertiary education news in the country.
