

Manujith P Sasidharan is a senior IT leader with over 24 years of experience in the banking and financial services sector. As Senior VP and Regional Director for ANZ & Pacific region at JMR Infotech, he leads core banking and digital banking transformations, and AI adoption program. He is a recognized expert in core banking systems, having led end to end implementations of core banking application, for traditional and fully digital banks, SWIFT ISO 20022 migration programs, Agency banking system implementations, and complex system integration projects. His expertise spans delivery leadership, solution architecture, pre-sales strategy, and resource planning. Earlier in his career, he held pivotal roles at Citicorp Overseas Software Ltd and Polaris Software Lab Ltd, contributing to major Citibank projects across Europe, the Middle East, and Asia Pacific.

A certified PMP® professional and expert in Oracle Banking applications, Manujith brings a strong blend of project leadership and technical expertise. He is also passionate about emerging technologies such as Deep Learning, AI and Blockchain, and is a published researcher in Deep Learning applications. He holds a Master's degree in Electrical Engineering from National Institute of Technology, Tiruchirappalli, India and is making active contributions to bridge traditional banking systems with modern digital solutions.
