Successful Record

**AI SUMMIT will be held on
06th March, 2026**

The institute has organized the second conference on 07th April 2025 centered on "Artificial Intelligence." Given the current global trend towards the adoption of advanced technologies, we have encountered various challenges.

ICIT Conference on Artificial Intelligence. International Training Institute is in the educational sector. The first ICIT conference was conducted on 14th July 2014 in Internet Technologies and Security from the PNG. Participants from the South Pacific have attended and shared their experience in Internet Technologies, the benefits, and the challenges. The institute is actively shaping the future of AI, carving to accomplish its vision. This will enlighten the business organizations and other firms on Artificial Intelligence.

The summit will cover trending and contemporary topics related to AI in the Environment and Climate Change, AI in Modern Banking, AI in Education, and Generative AI. The speakers from the national and international backgrounds have engaged with over 250 attendees at the summit. The Honorable Timothy Masiu, Minister of Department of Information and Communication Technology addressed the participants and the speakers in the summit and he has commended Mr. Senthil Kumaran Senthayval, the Chairman and Co-founder of ITI and the management for organising the AI Summit 2025 successfully.

Message

Chairman & Co-Founder

Mr. Senthil Kumaran Senthayval

International Training Institute (ITI)

We're delighted to invite you to the 2nd AI Summit, taking place on 6th March 2026 at the Stanley Hotel. Following the resounding success of our inaugural summit—where over 230 participants gathered to ignite meaningful conversations around artificial intelligence—we're excited to build on that momentum.

Last year's event was a pioneering initiative, bringing together 13 distinguished speakers and panelists from both Papua New Guinea and abroad. It marked the beginning of a vital dialogue on AI's role in our region.

In 2026, we're raising the bar with a lineup of seasoned experts who will explore the latest trends, innovations, and ethical considerations shaping the future of AI. The conversation continues—and we're committed to making AI a positive, inclusive, and empowering experience for all.
